### COLLIN TATE

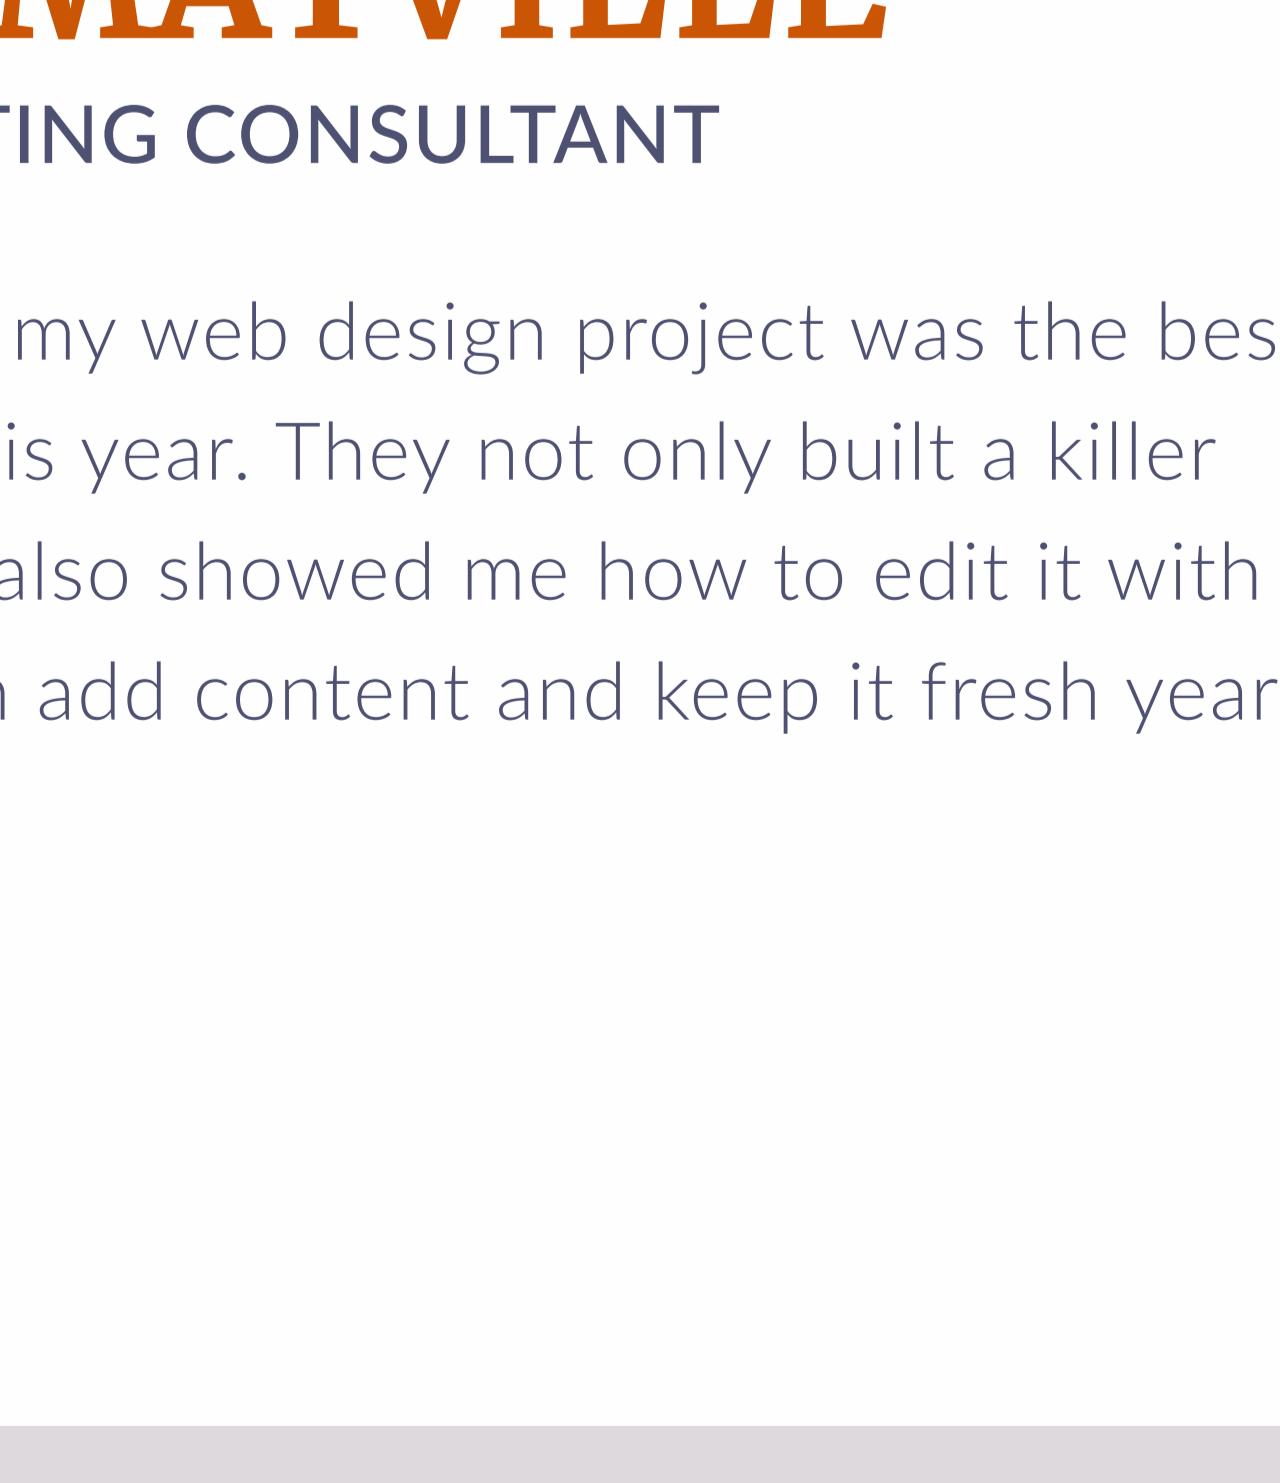

PARTNER, ANCHOR POINT DIGITAL

Proxy took our vague thoughts and ideas and turned them into a stunning website for our agency. We get compliments all the time from clients who want to know what platform our site is built on. Proxy rocks!

### RYAN MALONEY

MEDIALUV VIDEO ANIMATION

This site looks so damn good, and I am the pickiest mother f\*cker when it comes to design. Might be the first time I am fully satisfied with the visuals someone other than myself created!

### LOGAN MAYVILLE

DIGITAL MARKETING CONSULTANT

Having Proxy lead my web design project was the best decision I made this year. They not only built a killer website, but they also showed me how to edit it with Elementor so I can add content and keep it fresh year round.
